FORM OF THE APPLICATION TO FUND A PROJECT CO-FUNDED FROM THE STRUCTURAL FUNDS OF THE EUROPEAN UNION

(filling date) (specification date)

(filling location)

(A form of the Application to fund a project co-funded from the structural funds of the European Union (hereinafter – EU) (hereinafter – Application form) is completed by logging-in to the website on the exchange of data of projects co-funded from the European Union structural funds (hereinafter – DMS), or by downloading from the DMS a pre-completed form customised to a specific call for proposals. The downloaded Application form is completed using version X or XI of Adobe Reader programme.

The Applicants submitting Applications to receive a grant according to the Global grant measure of the EU fund investment operational programme (hereinafter – Operational Programme) (hereinafter – Global Grant measure), shall fill in a Application form in the manner set forth in the Guidelines for Applicants .

Where the filling in instruction indicates a maximum number of characters, or indicates that only numbers can be entered, in case more characters or letters are entered, an error message is displayed and the values are not saved.

1. DATA ON THE APPLICATION

1.1. No. and name of the Operational programme	01.2.2-LMT-K-718 Targeted research in smart specialisation areas
1.2. No. of the call for applications or of the approved list	<i>Please indicate (select) the number of the call for proposals, e.g. 01</i>
1.3. Project title	<p><i>Please indicate the title of the project for which the funding is requested. The title of the project should be short and clear, specifically conveying the idea of the project. The title should not include the name of the applicant. Longer names of the projects can also provide an abbreviation of the project title (written in brackets following the title).</i></p> <p><i>Use upper and lower case lettering (e.g. Two Channel Photosystem Based on Supramolecular Tubular Polymer, etc.).</i></p> <p><i>Max. 150 characters.</i></p> <p><i>Mandatory field.</i></p>

2. DATA OF THE APPLICANT

Details of the Applicant

5. PROJECT DESCRIPTION

5.1. Project need Description of the selected decision, and of the anticipated result
--

5.1.1. Please describe the need for the research project. The need for the project is substantiated by answering the following questions: why is it worthwhile investing EU structural funds in the project; which problems related to targeted research in the area of smart specialisation are intended to be addressed.

Please describe the content of the research project and a phased work plan in each project implementation year; please specify the equipment required for the research, and/or the data resources.

This section must reflect the incentive effect of the funding of the EU structural funds, i.e. the objectives that could not be achieved without the EU structural funds.

5.1.2. Please describe the expected results of the research projects, and indicate where such results will be published; the research and/or other production intended to be submitted with interim and the final research reports. Please describe the importance of the planned results at national and international level, possibilities and prospects for using such results.

Please describe in what way and to what extent the anticipated results of the research will contribute to the feasibility of the objectives and the tasks of the operational plan of a specific priority axis. Please specify the planned scientific production, and which of the following results are anticipated to be achieved (if such is provided):

patent in Lithuania, also a patent application holding a registration certificate;

a patent issued by the European Patent Office (EPO), United States Patent and Trademark Office (USPTO), or the Japan Patent Office and owned by Lithuanian natural persons or legal entities;

A plant variety assessed at European specialised centres (Reports on Technical Examination of the DUS Testing required to be submitted);

An animal breed registered in the national or international registers;

New technology with the implementation statement, or tested in production;

A species or a microorganism strain registered in the international registers and having a registration certificate;

An open new digital resource obtained in the course of research, a data base or an open source software suitable to be used for R&D.

5.1.3. Please describe the idea of the research project, its novelty, specifying the project objectives and tasks, their originality and relevance; novelty of the knowledge and/or technologies intended to be created within the framework of the project, relevance of the research and (social, cultural) development problems being addressed, ambitiousness and the suitability of the project objectives to achieve the project objectives; indicate the research methods.

Please indicate whether or not the research provided within the framework of the project duplicates any earlier or current (including under the submitted applications).

5.1.4. Please describe the international scientific achievements of the research leader, experience in carrying out and managing research, please provide the information on the research projects completed or in progress in the course of the past ten years until the last day for submission of Applications indicated in the call for proposals;

Please justify the composition of the research group: provide a description of the research competence and the capacities of the other principal members of the research group to implement the research project; please specify the tasks intended for each member of the research group.

5.1.5. Please indicate the part of the project represented by research, and the part represented by development. Please the arrangement of the two parts in each of the project implementation year, and the preliminary amount allocated to each stage.

Max. 15,000 characters.

Mandatory field.

5.2. Project summary (published)

Please provide a short and concise description of the essence of the project, i.e. the objective of the project, the project activities intended to be implemented and the results expected to be achieved by the activities. The information is published in the EU structural funds' website www.esinvesticijos.lt (hereinafter – website www.esinvesticijos.lt).

Max. 2,000 characters.

Mandatory field.

5.3. The capacity of the Beneficiary to implement the Project and the description of the Project management.

The rationale for the selection of the Partners

Please describe the responsibilities and the functions of the members of project management group and/or the personnel administering the project.

Please describe in detail the administrative capacities required for the implementation of the project of the Applicant and/or its partners (if any).

Please provide the rationale for the selection of the partner (if any): the partner's contribution to the project, please explain why the project has to be implemented with a partner, the benefit from the inclusion of the partner into the project; whether the partner will contribute to the project objective implementation, and by which activities; does the partner have sufficient experience and capacities to implement the designated project activities, etc.

Please indicate and substantiate the need of advance payment, its amount and the period for its disbursement (applied if the advance is allowed according to the provisions of the Guidelines for Applicants).

Max. 15,000 characters.

Mandatory field.

5.4. Project implementation risks and their management

In relation to describing the risks potentially having a direct affect upon the implementation of the project, please select a risk relevant to the project from the drop-down list in the Table. Please specify in the fields of the Table potential negative impact upon the implementation of the project and the expected results. More than one risk can be selected. The list of risks is preliminary and is intended to help the Applicant to determine the risks, therefore it is not considered to be exhaustive.

In case the drop-down list does not include a risk relevant to the Applicant, the Applicant may select from the list 'Other risk' and specify the risk in other fields of the Table.

- **Designing (planning) quality risk** (lack of administrative capacity and competence of the project management team, delays in project activity due to public procurement procedures and/or excessively lengthy construction permit issuance procedures, the necessity to suspend, change or procure additional works, to attract additional financing sources to fund the increased value of construction works, a risk of an inaccurate plan for research, development and innovations (RDI), patenting risk, failure to attain the indicators due to an inaccurate planning, etc.);
- **Risk of the quality of the acquired (performed) contract works** (inadequate capacities or skills of appointed specialists, lack of competence, failure to appoint responsible persons, lack of competence on the part of contractors, and/or inadequate quality of contract works; the inadequate quality of the contract work may result in infringements of legal acts of the Republic of Lithuania, protracted procedures of completion of contract works, defects of the contract works, environmental risks, inadequate quality of R&D activities, etc.)
- **Risk of quality of acquired (provided) services** (a risk of inadequate quality of acquired services, risk of inadequate quality of project activities, risk

- of inadequate quality of acquired R&D services, lack of competence and/or skills of the existing or newly hired R&D or other staff, etc.).*
- **Risk of quality of acquired equipment, manufactured equipment, developed products or other assets** (*defects of equipment, facilities or other assets, unfitness for use in a product development process, insufficient or insufficiently used capacities of the equipment or other assets, etc.*).
 - **Risk of insufficient funding** (*financial risk, political risk, risk of unlawful State aid, inaccurate estimation of project implementation costs, erroneous estimation of the duration of project activities, inadequacy of financial flows, etc.*).
 - **Risk of suitability of the products (services, goods) submitted for the market** (*technological risk, technological compatibility risk, legal risk, social risk, counterpart default risk, product default risk, risk of increase in operating costs, risk of increased market prices, risk of additional costs, commercial inapplicability of R&D activity results, etc.*).
 - **Risk of demand for the product (goods, services) submitted to the market** (*macroeconomic risks, microeconomic risks, failure to attain target indicators due to insufficient demand, etc.*).
 - **Risk of residual value of the assets at the end of a reporting period of the project** (*risk of an unscheduled change in the value of the assets, risk of a change in the amount of dedicated reinvestment, etc.*).
 - **Other risks.**

5.5. Projected use of the completed Project results

Please provide Project continuation description in terms of the physical and operational continuation of the results.

Physical continuation: a concise description of how the project products will be continued (e.g. the method of payment for the operation of the equipment acquired), or the method to ensure the use and/or the dissemination of the project results.

Continuation of the project results: please indicate the project management personnel that will ensure (please indicate specific measures) the continuation of the project activities after the termination of the project funding according to the requirements of the Guidelines for Applicants, if such have been established (e.g. the services (e.g. oncology, traumatology) that the medical equipment acquired for the purpose of the project implementation will be used), etc.

Max. 2,000 characters. Mandatory field.

6. LOGICAL PROJECT RATIONALE

Project objective:

(Please provide a concise objective of the project by clearly defining the key idea of the project, i.e. what is being pursued by implementing the project. The objective of the project is to ensure an efficient decision to the an important problem. A project may not have more than one objective. The objective of the project must correspond to the objectives of the measures under the operational programme as indicated in the Guidelines for Applicants, or contribute to the implementation of such objectives. Max. 300 characters. Mandatory field.)

7. PROJECT BUDGET

(Cost categories 1–3 are filled in only for the projects funded from the European Regional Development Fund and the Cohesion Fund, also in the cases when cross-financing is requested for the projects financed from the European Social Fund. Cost categories 4–7 apply to all projects. A project budget can indicate only eligible costs on the basis of the costs eligible to be funded from the EU structural funds specified in the Description of Project Financing Conditions. Project budget items by each cost category are filled in having regard to the Recommendations regarding the compliance of project expenses with the requirements of structural funds of the European Union published at the website www.esinvesticijos.lt. The total of the project budget costs shall be computed by automatically adding the amounts entered in Section ‘Total eligible costs’.

INFORMATION REQUIRED FOR THE ASSESSMENT OF COMPLIANCE OF THE PROJECT WITH THE PROJECT SELECTION CRITERIA

21. APPLICANT'S DECLARATION

I hereby certify that:

1. To the best of my knowledge the information provided in the present Application and the documents attached thereto is truthful.
2. The funding requested is the smallest amount of funding required for the implementation of the project.
3. I am familiar with the project financing conditions, the procedure and the requirements set forth in the Description of Project Financing Conditions. In case any new requirements or conditions are put in place in relation to amending the Description of Project Financing Conditions, I undertake to abide by the same.
4. I am aware that the project for the funding of which the present Application is submitted, will be implemented from the EU structural funds for 2014–2020, and the funds of the budget of the Republic of Lithuania.
5. I hereby undertake, within the term set forth by the Implementing Authority, to submit the required information and/or perform the actions specified by the responsible authorities of the Republic of Lithuania and the EU, to be performed for the purpose of the application the legal acts of the Republic of Lithuania and the EU specified in the *Description of Project Financing Conditions, and governing the implementation of the operating programme*.
6. I, or the Applicant I represent has met all the obligations related to the payment of taxes and social insurance contributions according to the relevant legislation of the Republic of Lithuania, and, in case the Applicant is a legal entity registered abroad – according to the relevant legal acts of the respective foreign state (*this provision shall not apply to the institutions whose activities are funded from the budgets of the Republic of Lithuania and/or municipalities, and with respect to which the terms for the payment of taxes or social insurance contributions may be deferred in the manner specified in the legal acts of the Republic of Lithuania*).
7. I, or the Head of the Applicant I represent, a general member(s) of the partnership, or a small partnership authorised to conclude contracts on behalf of the legal person, or the accountant(s), or another person(s) authorised to draw up and sign accounting documents do not have a conviction record, or unexpired conviction, and no judgement of conviction has been passed or has come into effect within the past 5 years regarding the activities specified in Item 2 of Annex 3 *Description of the restrictions to allocate financial support of the European Union, resources of the European Economic Area, the Norwegian Financial Mechanisms for 2009–2014, and the Lithuanian-Swiss cooperation programme for 2007–2012 of the Rules for refunding the financial assistance to the State Budget of the Republic of Lithuania approved by Resolution No. 590 of 30 May 2005 of the Government of the Republic of Lithuania On the Approval of rules for refunding the financial assistance to the State Budget of the Republic of Lithuania* (this provision shall not apply if activities of the Applicant are funded from the State budget of the Republic of Lithuania and/or budgets of municipalities, and/or the state monetary funds).
8. The Applicant that I represent and that has relocated its economic operations within the Member State or another Member State is not or has not been subject to any recovery procedure.

9. Neither I nor the Applicant I represent has been subject to any restrictions (up to 5 years) regarding the allocation of the EU financial assistance because of the illegal employment of third-country nationals.

10. The Applicant I represent has not been subject to bankruptcy or restructuring proceedings, no pre-trial investigation concerning its commercial-economic activities has been instituted, and/or it is not being liquidated, and no creditor arrangement has been put in place for an out-of-court bankruptcy proceeding (*the provision does not apply to budgetary institution*); neither I nor the Applicant I represent as a natural person has not been subject to bankruptcy proceeding or a pre-trial investigation has been initiated because of the Applicant's economic-commercial activity.

11. Neither I nor the Applicant I represent has been subject to any restrictions to receive funding because the funds were not refunded within the term specified in the Decision, or only part of the funds has been repaid (*this restriction shall not apply to the institutions whose activities are funded from the budgets of the Republic of Lithuania and/or municipalities, and/or public monetary funds, and the institutions whose activities are funded from the structural funds of the EU for 2007-20013, or the technical assistance of the EU structural funds for 2014-2020, the European Investment Fund and the European Investment Bank*).

12. At the time of the assessment of the Application the Applicant I represent has submitted its set of the annual financial statements to the Register of Legal Entities, also the sets of the consolidated financial statements, as required according to the Regulations of the Register of Legal Entities approved by Resolution No. 1407 of 12 November 2003 of the Government of the Republic of Lithuania *On the establishment of the Register of Legal Entities and the approval of the Regulations of the Register of Legal Entities (this provision shall apply in the cases when the financial statements are required to be drawn up according to the laws applicable to the legal person, a foreign legal person, or another organisation or its branch; this Item of the Declaration does not apply when the Applicant is a natural person)*.

13. In case the project is implemented in cooperation with a partner, and in case the VAT costs are incurred in relation to the implementation of the project, which are eligible to be funded from the EU structural funds and/or the budget of the Republic of Lithuania, I hereby confirm that by concluding joint activity agreements, or by other methods I will ensure that the goods, services or works intended to be acquired for the purpose of the project implementation will be allocated for the non-economic activities of the partner, and the types of activities specified in Articles 20-26, 29 and 33 of the Law on Value Added Tax of the Republic of Lithuania (*this provision does not apply to legal entities registered abroad, or foreign citizens*).

14. I and the Applicant I represent are aware that the VAT of the taxable person of the Republic of Lithuania paid abroad cannot be refunded through the Electronic Application System (EPRIS) of the State Tax Inspectorate under the Ministry of Finance of the Republic of Lithuania, and in case the VAT is refunded, the Implementing Authority shall be notified thereof immediately.

15. My private interests, and those of the Applicant's Manager, and those of the Applicant I represent as of a natural person engaged in economic commercial activities are reconciled with the public interests of the society.

16. The implementation of the project will ensure compliance with horizontal principles (sustainable development, gender equality and non-discrimination).

17. I am not aware of any other reasons not specified in the present Declaration for which the project could not be implemented, or the implementation whereof could be postponed, or for which the project could not be implemented in the period of funding from structural funds in 2014-2020.

18. I hereby agree to undertake to provide the amount of own funds (contribution) to cover the eligible costs, and ensure the payment of all other costs (including ineligible costs) required for the implementation of the project.

19. I agree that representatives of the European Court of Auditors, the European Commission, the Ministry of Finance and intermediate institutions, the Public Procurement Office, the National Audit Office of the Republic of Lithuania, the Financial Crime Investigation Service under the Ministry of the Interior, the Special Investigation Service or the Competition Council of the Republic of Lithuania, or their authorised officials audit and control my economic and financial activities as the project implementer to the extent related to the implementation of the project. I agree that for the purpose of the implementation of the functions set forth in the legal acts governing the administration of the operational programmes the above institutions request and receive all the information about me, the Applicant I represent and the persons indicated in the Application from data bases of the State, foreign registers and institutions, and solvency and creditworthiness data bases managed by other legal entities.

20. I understand and I agree that my Application may be rejected if not all requested data are attached thereto (including the present Declaration).

21. I agree that the data provided in my Application are processed and stored at the SFMIS (EU structural support computer-based information management and monitoring system), and the State budget accounting and payment system.

22. I agree that the information about the Application submitted by me or the Applicant I represent (the title of the Applicant, the project title, short description of the project, the Application code and the requested financing amount), as well as the Application assessment results, the decision passed to finance or refuse the financing of the project, the amount of the funding allocated to the project, the information about the products developed for the purpose of the project implementation (provided the publication of such data does not contradict legal acts of the Republic of Lithuania) are published at the internet website www.esinvesticijos.lt.

		3.2. Functional food.	<input type="checkbox"/>
		3.3. Innovative development, improvement and processing of biological raw materials (biorefinery).	<input type="checkbox"/>
4. New production processes, materials and technologies	<input type="checkbox"/>	4.1. Photonic and laser technologies	<input type="checkbox"/>
		4.2. Functional materials and coatings.	<input type="checkbox"/>
		4.3. Structural and composite materials.	<input type="checkbox"/>
		4.4. Flexible technological systems for product creation and production.	<input type="checkbox"/>

5. Transport, logistic and information and communication technologies	<input type="checkbox"/>	5.1. Smart transport systems and information and communication technologies.	<input type="checkbox"/>
		5.2. Technologies, models for the management of international transport corridors and integration of modes of transport.	<input type="checkbox"/>
		5.3. Advanced electronic contents, content development technologies, and information interoperability.	<input type="checkbox"/>
		5.4. Information and communications technology infrastructure, cloud computing solutions and services.	<input type="checkbox"/>
6. Inclusive and creative society	<input type="checkbox"/>	6.1. Modern self-development technologies and processes.	<input type="checkbox"/>
		6.2. Technologies and processes for the development and implementation of break-through innovations.	<input type="checkbox"/>
