

NCPs of Research Council of Lithuania are pleased to invite you to the webinar on Practical Aspects of SSH Integration, which will take place on Thursday, 25 November from 10:00 to 11:30 (EET).

SSH are an essential element of the activities needed to tackle each of the societal challenges to enhance their impact. Contributions from SSH research fields are needed to generate new knowledge, support evidence-based policymaking, develop key competences and produce interdisciplinary solutions to both societal and technological issues.

During webinar our speaker Dr. Kimberly Couvson-Liebe, Cluster 2 NCP, Net4Society, DLR Project Management Agency, will present the outlook for SSH Integration within the programme. The second part of the webinar will be dedicated to examples and experience of SMARTEES (Norway) and RURITAGE (Italy) projects.

The event will be moderated by Aurelija Povilaike.

This webinar is free of charge, but the registration is required. Please, register by 23 November.

You will receive the link to the meeting via e-mail a day before the event.

If you have issues with the registration, please contact NCP Gintauta Zemaitiene by e-mail gintauta.zemaitiene@imt.lt
